PROFESSIONAL SUMMARY

Aspiring **Data Analyst** and MCA (Data Science) student with hands-on experience in **Python, SQL, MS Excel, and Power BI**. Skilled in **data cleaning, exploratory data analysis (EDA), data visualization, and dashboard development** using real-world datasets. Built end-to-end analytics projects using Python, SQL, and Power BI to generate meaningful business insights. Seeking a **Data Analyst or Data Analytics Intern** role to apply analytical and problem-solving skills.

TECHNICAL SKILLS

Programming: Python, SQL
Data Analytics: Pandas, NumPy, Matplotlib, MS Excel, Power BI
Database: SQL, SQL Server
Tools: Git, GitHub, VS Code

PROJECTS

Customer Analytics & Segmentation | ***Python, SQL, Pandas, NumPy, Matplotlib***
- Performed customer segmentation using Python and SQL to identify distinct customer groups.
- Cleaned and transformed customer data using Pandas for analysis.
- Conducted exploratory data analysis to identify spending and income patterns.
- Created visualizations and generated business insights into customer behavior.

Netflix Data Analysis | ***Python, Pandas, NumPy, Matplotlib***
- Analyzed the Netflix Movies & TV Shows dataset using Python.
- Performed data cleaning and exploratory data analysis (EDA).
- Identified trends across genres, countries, ratings, and release years.
- Built visualizations to communicate meaningful insights from the dataset.

Sales Dashboard | ***Power BI, MS Excel***
- Developed an interactive sales dashboard with KPI cards, charts, and slicers.
- Analyzed sales performance across categories, products, and regions.
- Designed business-ready reports to support data-driven decision making.

EDUCATION

Master of Computer Applications (Data Science)
UPES, Dehradun | 2025 – Present

Bachelor of Computer Applications
Graphic Era Hill University, Dehradun | CGPA: **6.89/10**

CERTIFICATIONS

Python Training – Spoken Tutorial Project, IIT Bombay

Java Training – Spoken Tutorial Project, IIT Bombay
